

Values

New Thought Montessori School was founded with a foundation of faith and came to fruit through the power of prayer, leaps of trust, and a community of strong conservative families looking for a safe place for their children in the world we are living in today. We chose to open our second school in Idaho because of the values and Constitutional freedoms it upholds and guarantees. Our community is made up of families who hold these values and believe that children and family are of the utmost importance.

If you choose our school, these values should be important to you as well.
